“Three of the key contributions a Board member makes is in setting strategic direction, ensuring the organization's financial health and good governance in order to ensure the organization's success and continuity in to the future. These three elements are comprehensively handled in the Global C-Suite Business & Finance Programme. Even though I have had many years experience in accounting and financial analysis both through my studies and my career as a banker, I have always felt that I lacked the professional qualification to prove my financial acumen. The programme has added that new dimension to my profile. Furthermore, the ACMA/CGMA qualification is an invaluable addition especially given that my consulting business is focused on transforming businesses - be it financial, structural or cultural.”

“Having gone through the Global C-suite Business & Finance Programme, I can proudly state I rediscovered and brushed up on knowledge that's critical for my current role as Senior Vice President - Treasury and Resource Mobilization. The program helped me look into Organizational strategies from a broader perspective way and apart from securing a professional qualification, it was a catalyst in helping me become a pragmatic professional. This is a game changer no matter what experience or qualifications you have and once completed, you would discover new competencies!”

About CGMA

CGMA is the most widely held management accounting designation in the world. It distinguishes more than 150,000 accounting and finance professionals who have advanced proficiency in finance, operations, strategy and management. In the U.S., the vast majority are also CPAs. The CGMA designation is underpinned by extensive global research to maintain the highest relevance with employers and develop competencies most in demand. CGMAs qualify through rigorous education, exam and experience requirements. They must commit to lifelong education and adhere to a stringent code of ethical conduct. Businesses, governments and nonprofits around the world trust CGMAs to guide critical decisions that drive strong performance.
